Re: Consumer Confidence Report
Public Water Supply ID# KS2014502

This letter is being sent to remind everyone that it is time to start preparation for the 2016 Consumer Confidence Report (CCR). All community public water supply systems are required by federal and state regulations to provide their customers with an annual water quality report. **Please give this information to whoever is responsible for completing the report for your water system.**

This year's report covers calendar year 2015, and must be distributed to customers by **July 1, 2016**.

You may copy and distribute the enclosed report to your customers, or you can choose to use the electronic distribution method. During 2015, EPA approved the option of **electronic distribution** of the CCR report. If this option is chosen, the public water supply system must be able to have a **DIRECT LINK** to the report. Also, a completed Certificate of Delivery and proof of notification to customers of the web address must be submitted to KDHE, Please note the notification to the customers must inform the customers of the web address, and who to contact if internet is not available and customers want to request a paper copy of the CCR. **Please note, you only have to choose one option for distribution of the CCR to customers (mail or electronic option).**

Systems must make a good faith effort to reach consumers who are served by the system but are not bill paying customers, such as students, renters, and workers. A good faith effort to reach all consumers would include a mix of the following: mail to postal patrons; publish in a local newspaper; post the report in public places such as libraries or inform customers where a copy is available. You can deliver multiple copies for distribution by customers such as apartments, colleges and universities, or large private employers.

This information is correct to the best of our knowledge. It is the responsibility of the Public Water Supply to check all data, and include public notices if required.

Please note the Consumer Confidence Report Rule requires copies of the water quality report to be kept on file for no less than three (3) years. If you have any further questions or if you would like an electronic copy of the enclosed report, please contact me by telephone at (785) 296-3016, or by email at pcroy@kdheks.gov.

Sincerely,

Patti J. Croy
Public Water Supply Section
